

1. Select Firestick Settings

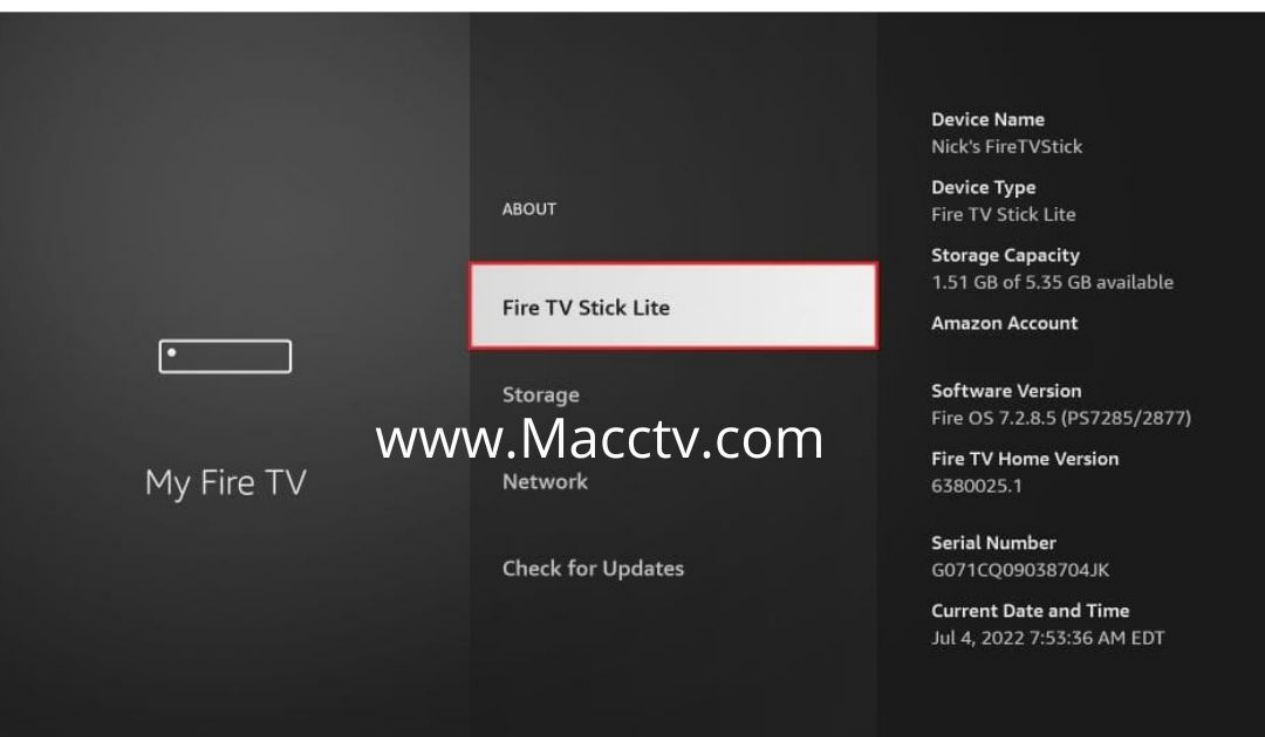

2. Click My Fire TV

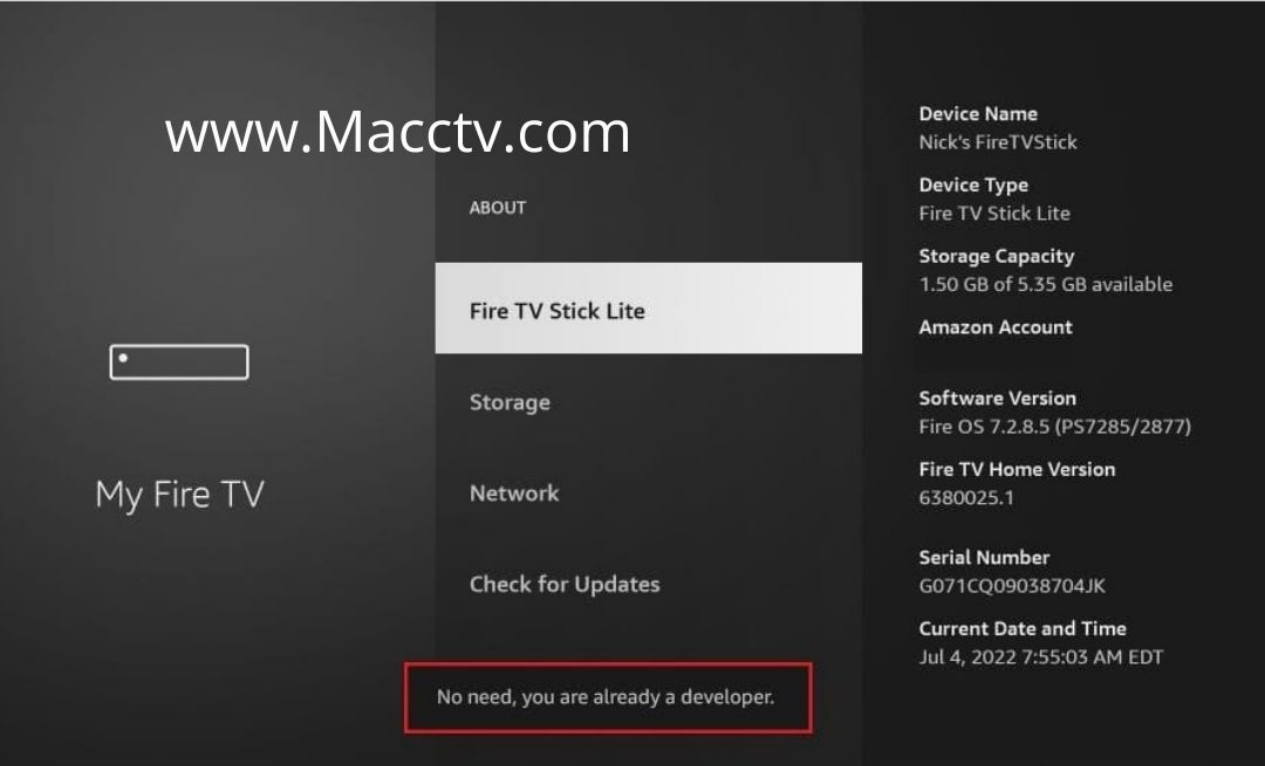

3. Click About [only if you DO NOT see Developer Options on this Screen]

4. Click on your fire TV Stick Quickly 7 times

5. You will see a notification at the bottom saying No need, your are already a developer. That's it, you have enabled Developer Options

6. Now you can go into Developer Options and enable Apps from Unknow Sources
